# Workshop Objectives

- Participants understand how a strengthened enabling environment is critical to achieving national WASH targets and the SDGs
- Participants have mapped and understood how to strengthen WASH service accountability
- Participants understand the contents and functions of the WASH Bottleneck Analysis Tool (BAT), and are capable of rolling out the tool
- Participants assess the relevance of and opportunities for the WASH BAT in their country, and discuss and agree the next steps for implementation
- Establishment of a monitoring and evaluation plan, and identification of support needs and resource people
